

Comprehensive Future

We have never had a fully comprehensive school system in England. We brand thousands of children as failures at the age of eleven. The 11-plus examination still exists in a quarter of English local authorities. The Schools Admissions Code allows all schools to be partially selective on 'aptitude' and those selecting on ability to continue. Increasingly schools are becoming admissions authorities able to decide which children to admit.

Comprehensive Future campaigns for fair school admission policies in England. Our campaign is non party political and open to all. By lobbying Government, providing evidence, informing the media and supporting local campaigns on admissions we aim to bring about a comprehensive secondary school system in England with fair admissions criteria to all publicly funded schools and an end to selection by ability and aptitude.

Our individual supporters include school staff and governors, parents, members of both Houses of Parliament, local councilors, academics and many others who share a commitment to equality of opportunity within our education system.
